

## USABILITY TESTING

1 – Strongly Disagree	5 – Strongly Agree	1	2	3	4	5
I think that I would like to use this system frequently.					X	
I found the system unnecessarily complex.	X					
I thought the system was easy to use.						X
I think that I would need the support of a technical person to be able to use this system.	X					
I found the various functions in this system were well integrated.		X				
I thought there was too much inconsistency in this system.		X				
I would imagine that most people would learn to use this system very quickly.					X	
I found the system very cumbersome to use.	X					
I felt very confident using the system.						X
I needed to learn a lot of things before I could get going with this system.	X					

### Score Calculation

Odd number items =  $\_4\_ + \_5\_ + \_2\_ + \_4\_ + \_5\_ - 5 = \_15\_$

Even number items =  $25 - \_1\_ - \_1\_ - \_2\_ - \_1\_ - \_1\_ = \_19\_$

Final Score =  $(\_15\_ + \_19\_) * 2.5 = \_85\_ \%$

### A summary on things you liked:

I really liked the export where I could select jpeg because its annoying to convert a pdf into a picture.

---

**A summary on things you did not like:**

I would've liked to see more option like being able to select the range value for example to select only 20 years of data from a dataset that holds a 100. I also found that the graphs weren't optimal to read and could be improved.
